The history of Nutrimetics

Our legend was first discovered in the Himalayas. Our founders were astounded to find that the Hunza Valley Tribespeople not only lived on average to the age of 130, but also looked dramatically young for their age. Their secret turned out to be a diet rich in Apricots, plus daily application of Apricot Kernel Oil. The magic of Apricot made Nutri-Rich Oil an instant beauty sensation, and so a beauty legend was born. Today, Nutrimetics has grown to become one of Australia and New Zealand's most loved natural beauty brands and we sell a jar of Nutri-Rich Oil every 5 minutes*.

It's all in the ingredients

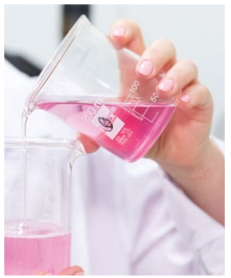

We will never make you choose between your wellbeing and results, or natural and effective. That's why every skincare product in our range is enriched with plant based extracts and formulated without compromise to the highest compliance and safety standards, using only the best nature has to offer.

Our products are dermatologically tested, cruelty free and naturally enriched.

How do I apply Advanced Bright?

1 CLEANSE

Give your face a relaxing massage with rinse and pat dry. It offers double brightening action to renew your radiance.

2 TONE

A good toner will replenish skin with important Antioxidants. Mist directly onto skin or apply with a cotton pad to fade discolouration.
